Professional Development Webinar

Webinar Title: PennDOT Connects – Integrating Planning and Engineering
Date: Wednesday, October 25, 2017
Time: 12:00 PM – 1:00 PM ET
Credits: One (1) PDH will be awarded for participation.

The webinar will discuss how PennDOT is integrating a more collaborative approach to transportation planning and project delivery to achieve Secretary Leslie Richards’ vision for better communities through better transportation solutions. The course will discuss:

- What is PennDOT Connects?
- The Connection between Planning and Engineering
- What PennDOT Connects Means for Project Delivery
- What PennDOT Connects Means for Performance Management

Engineers will have a better understanding of how collaboration with Planners can positively impact transportation solutions during project delivery. Participants will also gain a greater understanding of the value of Planning, the Integration of Planning and Engineering, and local government collaboration to improve transportation for better communities.

The webinar will be presented by **Brian D. Hare, P.E.**, Chief of the Planning and Contract Management Division at the Pennsylvania Department of Transportation.

Information about the webinar, including registration directions, PDHs, and payment options, can be found on the ASHE, Harrisburg [website](#).
